Developer and Creative Technologist at — FCB Health

May 2015 - February 2017 (1 year 10 months)

FCB, a full-service advertising agency, includes a network of smaller agencies. My roles as a member of the cross-network technology team include managing partners, meeting with creatives, often directly working from PSD files, building digital technologies including Wordpress and Drupal sites, web applications, tablet applications, touchscreen panels, and other visualization aids and products including newsletters, emails, rich and standard banner ads, and other visualizations.
